## REACH declaration of conformity

*Concerns: meeting the requirements of the REACH regulation*

**Dear All,**

We hereby declare that all rubber compounds manufactured/delivered by **Recykl Organizacja Odzysku S.A.**, type: **SBR Green Gran (granule)** and **Green Powder (powder)**, that are derived from recycling or recovery of worn tires, comply with EC Regulation No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) that is effective since 01 June 2007; thereby they meet the requirements of Article 5 of the said regulation: **“No data, no market”**.

Pursuant to Article 2, section 7(d), rubber compounds shall be exempt from the substance registration requirement and shall be regarded as recovered substances. Identification tests for compound components content that were carried out with the use of spectral techniques confirmed that the content of compounds is identical to substances registered in the Community already at the manufacturing stage. The tests also confirmed that rubber compounds do not contain polycyclic aromatic hydrocarbons (PAH) at the level exceeding the concentration limit value of 0.1% by weight, that would result in the classification of the compounds as dangerous. Thereby, products such as rubber mats offered by **Recykl Organizacja Odzysku S.A.** comply with Article 33 of the REACH regulation since they do not contain substances with the level of >0.1% by weight that are included in the latest Candidate List of Substances of Very High Concern (SVHC) suggested by ECHA as of 08 July 2021.

**Recykl Organizacja Odzysku S.A.** follows all legislation changes related to chemicals with special attention, especially changes that concern delivered products so that they are legally marketed. It results from the awareness of obligations related to ensuring proper documentation as well as from the sense of responsibility and care of the highest quality of services.

Sincerely,
